5, 6 and 8 Row Universal Alignment Block For HSD or VHDM® Backplane Connector System **Instruction Sheet** Order No. 62202-0212

FEATURES

- Designed to provide proper spacer and clearance on Backplane Connectors with guide pins and polarizing pins.
- This tool module may be used with an Insertion Tool to press in (1) one connector or is stackable in a Molex tool holder system to press in multiple connectors at one time
- See 62201-0999 VHDM-HSD® Backplane And Daughtercard Installation Tooling Operation Manual for more information on tooling, presses and repair

SCOPE:

Products: VHDM®* 5, 6 and 8-Row use on all connectors with guide pins. *VHDM® is a registered trademark of Amphenol Corporation

DESCRIPTION:

This tool is used with an Insertion Tool for pressing in an HSD or VHDM®* 5, 6 and 8-Row connector with locating pins. This block allows insertion tools for connectors with locating pins to be stacked in mounting rails with other VHDM or HSD insertion tools. They are mounted in one of several different lengthmounting rails. See Sections 2.3 and 4.2 in 62201-0999 VHDM-HSD® Installation Tooling Manual for detailed information on selecting the rails and mounting these special combinations

This tool is intended for use with a customer supplied back up and in a press of sufficient tonnage to allow full seating of the connector. There are no replacement parts available for this tool. Should any part of the tool be damaged the whole tool must be replaced.

OPERATION:

Refer to 62201-0999 VHDM-HSD Manual for proper operation, maintenance, and options of this tool for proper operation, maintenance, and options of this tool.
