

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## Tool Kit Order No. 63827-8770

# **Application Tooling Specification Sheet**

Hand Crimp Tool Order No. 63827-8700

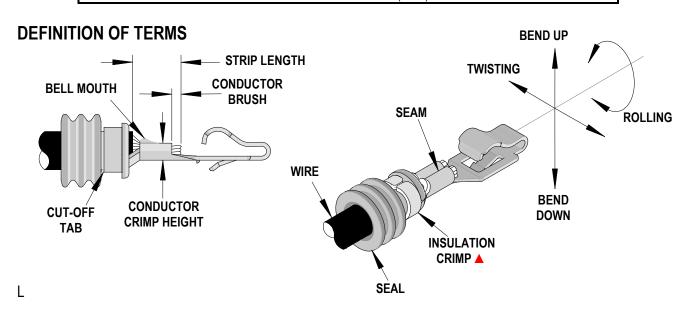

#### **FEATURES**

- A full cycle ratcheting hand tool ensures complete crimps
- Ergonomically designed soft handles
- Precisely designed crimping profiles with simple contact positioning
- Easy handling due to outstanding force ratio
- Tool kits are easily installed into the Hand Crimp Tool or the 63816-0300 Power Crimp Head which is installed into the 63816-0200 (110 V) or the 63816-0250 (220 V) Battery Powered Tool.
- Many different Tool kits can be used with a single Battery Powered Tool.

#### **SCOPE**

Products: Sealed Single Contact Terminal for S8 and T20 Socket

Terminal	Terminal Terminal Order No.		Wire Size and Type		on Diameter	Strip Length	
Series No.	<b>★</b> Reel Form Only	mm²	Type	mm	ln.	mm	ln.
		0.5	AVS	2.0 – 2.1	0.078 - 0.083		
49869	49869-9702	0.75	FLRY-A	1.7 – 1.9	0.067 - 0.075	5.0 – 5.5	0.20 - 0.22
		0.85	AVS	2.1 – 2.3	0.083 - 0.091		
*Customer to cut off terminal from reel: 0.30mm (.012") maximum Cut-off Tab.							

Doc No: ATS-6382787HM Release Date: 06-05-15 Revision: A Revision Date: 06-05-15

#### CRIMP SPECIFICATION

Terminal Series No.	Bell	mouth	Conductor E	Brush	Bend up Bend Down		Twist Roll	
Terminal Series No.	mm	ln.	mm	ln.	Degree	es Max.	Degree	es Max.
49869	0.30 - 0.60	.012 - 0.024	0.30 - 0.80	.012 – 0.031	3	3	3	5

After crimping, the crimp profiles should measure the following:

Terminal Wire Size			Conductor			Pull Force Drof		Profile		ما		
Terminal Series No.		Crimp	Crimp Height Crimp Width Minimum		num	Fiolile		ie	Seam			
Series No.	mm <sup>2</sup>	mm	ln.	mm	ln.	N	Lb.	Α	В	ပ	Seam shall not be	
	0.50	1.35-1.45	0.053-0.057			88.3	20	X			open and no wire allowed	
49869	0.75	1.45-1.50	0.057-0.059	2.1020	0.083-0.087	117.8	26.5		X		out of the crimping area	
	0.85	1.45-1.55	0.057-0.061			127.5	28.7			X		

	Wire Size	Inquiati	on Diameter	Single Wire	Sool		Seal (	Crimp	
Terminal Series No.	Wire Size	Insulation Diameter		Single Wire Seal		Crim	Height	Crimp Width	
	mm <sup>2</sup>	mm	ln.	Order No.	Color	mm	ln.	mm	ln.
	0.50	2.0-2.1	0.078-0.083						
49869	0.75	1.7–1.9	0.067-0.075	49454-9002	Red	3.80-4.00	0.150-0.157	4.20-4.40	0.165-0.173
	0.85	2.1-2.3	0.083-0.091						

#### ▶ Tool Qualification Notes:

- 1. Pull Force should be measured with no influence from the insulation crimp.
- 2. The above specifications are guidelines to an optimum crimp.

#### Note:

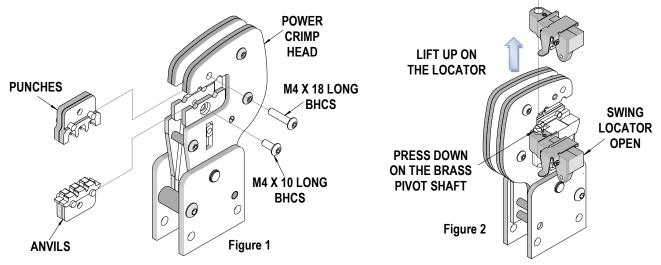

A crimp height chart is provided with this manual as Reference Only. Due to the wide range of wires, strands, insulation diameters, and durometers, actual crimp height measurements may very slightly. An occasional, destructive, pull force test should be preformed to check hand tool crimp. Pull Force value must exceed the minimum pull force specifications listed.

CAUTION: Crimp only Molex terminals listed above with this tool. Do not crimp hardened objects as damage can occur to the tool frame or crimping dies.

Doc No: ATS-6382787HM Release Date: 06-05-15 Page 2 of 9 Revision: A Revision Date: 06-05-15

#### **INSTALLATION**

To install the Tool Kit into the Power Crimp Head follow the steps below:

#### **Anvils and Punches Installation**

- 1. Insert the Anvils into the bottom slots of the nest. Install the M4 x 10 long BHCS and tighten in place.
- 2. Insert the Punches into the top slots of the nest. Install the M4 x 18 long BHCS and tighten in place. See Figure 1.

#### **Locator Installation and Removal**

Follow the steps below to install or replace the locator. See Figure 2.

#### To install the locator

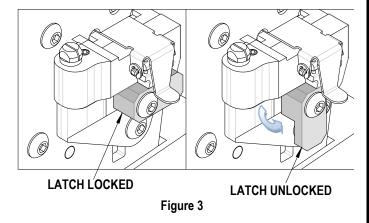

1. Position the locator with the hole over the brass pivot shaft and snap it into place.

#### To remove the locator

- 1. Open the crimp hand tool.
- 2. Swing the existing locator open and away from the hand tool.
- 3. Firmly press down on the brass pivot shaft with your thumb, while pulling the locator up. Slip the locator off the top of the brass pivot shaft.

#### **OPERATION**

Open the tool by squeezing the handles together, at the end of the closing stroke, the ratchet mechanism will release the handles, and the hand tool will spring open.

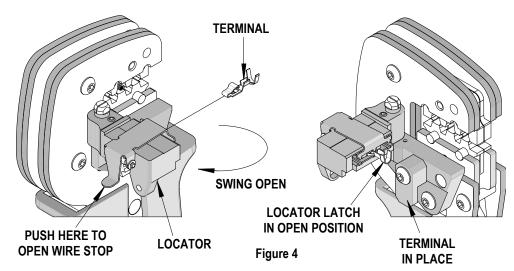

**UNCONTROLLED COPY** Doc No: ATS-6382787HM Release Date: 06-05-15 Page 3 of 9

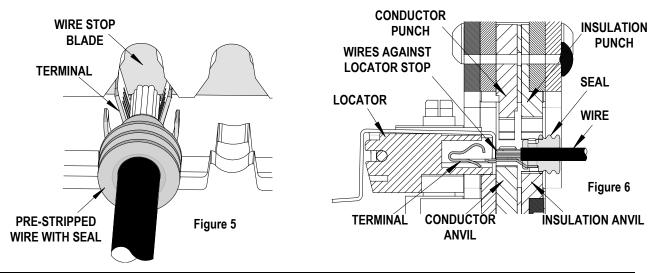

Revision Date: 06-05-15 Revision: A

#### **Crimping Terminals**

- 1. Crimp only the terminal listed in the preceding charts.
- 2. Turn the Locator Lock Latch down to unlock. See Figure 3.
- 3. Swing the terminal locator away from the crimp tool shown in Figure 4.

- 4. Press down on the wire stop on the locator as shown in Figure 4. Insert the terminal into the proper nest opening. Make sure when choosing the nest opening, it will correspond with the correct profile on the hand tool.
- 5. Return the locator to closed position.
- 6. Turn the Locator Lock Latch up to lock. Make sure that the terminal is visually centered over the punch.
- 7. Insert the proper wire (with the seal installed) over the terminal.
- 8. Gently touch the wire stop with the end of the wire and align the seal with the grips on the terminal. See Figure 5 and 6.

Note: The tamper proof ratchet action will not release the tool until it has been fully closed.

9. Crimp the terminal by squeezing the tool handles until the ratchet mechanism cycle has been completed. Release handles to open the jaws.

Doc No: ATS-6382787HM Release Date: 06-05-15 **UNCONTROLLED COPY** Page 4 of 9 Revision: A Revision Date: 06-05-15

- 10. Unlock the locator latch and swing the locator open.
- 11. Remove the crimped terminal from the terminal locator by pressing down on the wire stop and gently pulling on the wire.
- 12. Visually inspect the crimped terminal for an acceptable crimp.

#### For the Battery Power Tool:

- 1. Cycle the Battery Power Tool to crimp the terminal to the wire.
- 2. Remove the crimped terminal from the terminal locator by pressing down on the wire stop and gently pulling on the wire.
- 3. Visually inspect the crimped terminal for an acceptable crimp.

#### **Maintenance**

It is recommended that each operator of the tool be made aware of, and responsible for, the following maintenance steps:

- Remove dust, moisture and other contaminants with a clean brush, or soft, lintfree cloth.
- 2. Do not use any abrasive materials that could damage the tool.
- 3. Make certain all pins; pivot points and bearing surfaces in the tool head are protected with a thin coat of high quality machine oil. Do not oil excessively. This tool was engineered for durability, but like any fine piece of equipment, it needs cleaning and lubrication for a maximum service life of trouble-free crimping. The use of light oil, such as 30 weight automotive oil, every 5,000 crimps or monthly, will significantly enhance the tool life

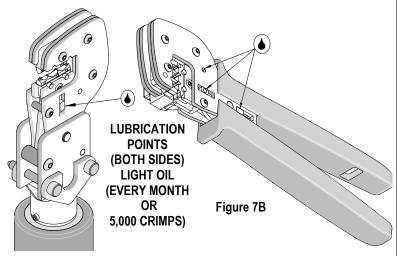

Figure 7A

- and ensure a stable calibration. See Figure 7A or 7B for lubrication points.
- 4. Store the tool in a clean and dry area when not in use.

## Miscrimps or Jams for Crimp Hand Tools Only (See Figure 10)

Should this tool ever become stuck or jammed in a partially closed position, **Do Not** force the handles open or closed. The tool will open easily by rotating the small slotted screw marked with an arrow. See Figure 10.

## Warranty

This tool kit is for electrical terminal crimping purposes only. This tool kit is made of the best quality materials. All vital components are long life tested. All tools are warranted to be free of manufacturing defects for a period of 30 days. Should such a defect occur, we will repair or exchange the tool kit free of charge. This repair or exchange will not be applicable to altered, misused, or damaged tools.

CAUTION: Molex crimp specifications are valid only when used with Molex terminals and tooling.

Doc No: ATS-6382787HM Release Date: 06-05-15 UNCONTROLLED COPY Page 5 of 9

Revision: A Revision Date: 06-05-15

## **CAUTIONS:**

- 1. Manually powered hand tools are intended for low volume or field repair. This tool is NOT intended for production use. Repetitive use of this tool should be avoided.
- 2. Insulated rubber handles are not protection against electrical shock.
- 3. Wear eye protection at all times.
- 4. Use only the Molex terminals specified for crimping with this tool.

**CAUTION:** Repetitive use of this tool should be avoided.

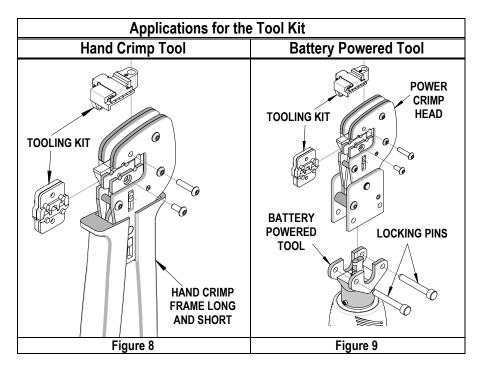

## Certification

Molex does not certify or re-certify commercial grade hand tools but rather supplies the following guidelines for customers to re-certify hand tools.

- % This tool is qualified to pull force only. To re-certify, crimp a terminal to a wire, which has been stripped 12.7mm (1/2") long, so there is no crimping of the insulation. Pull the terminal and wire at a rate no faster than 25mm (1.00") per minute. See the Molex web site for the Quality Crimp Handbook for more information on pull
- When the hand tool is no longer capable of achieving minimum pull force, it should be taken out of service and replaced.
- % This tool is very difficult to disassemble and reassemble. Customer repair is not recommended.

**UNCONTROLLED COPY** Doc No: ATS-6382787HM Release Date: 06-05-15 Page 6 of 9 The chart below shows all applications for this Tool Kit.

Tool Kit Order No.	Tool Order no.	Tool Description	Power Head Order No.	Adapter Description	Figure No.
	63810-1050	Hand Crimp Frame (Short)	N/A	N/A	8
63827-8770	63810-1000	Hand Crimp Frame (Long)	N/A	N/A	8
03021-0110	63816-0200	Battery Power Tool (110 V)	63816-0300	Power Crimp Head	9
	63816-0250	Battery Power Tool (220 V)	63816-0300	Power Crimp Head	9

WARNING: NEVER operate service, install tool kits, or adjust the Power Crimp Head without proper instruction and without first reading and understanding the instructions in the proper Manual or Specification Sheet. See Chart above for the correct Manual or Specification Sheet.

WARNING: NEVER install tooling or service this tool while it is into any power source. Make sure the power is turned off.

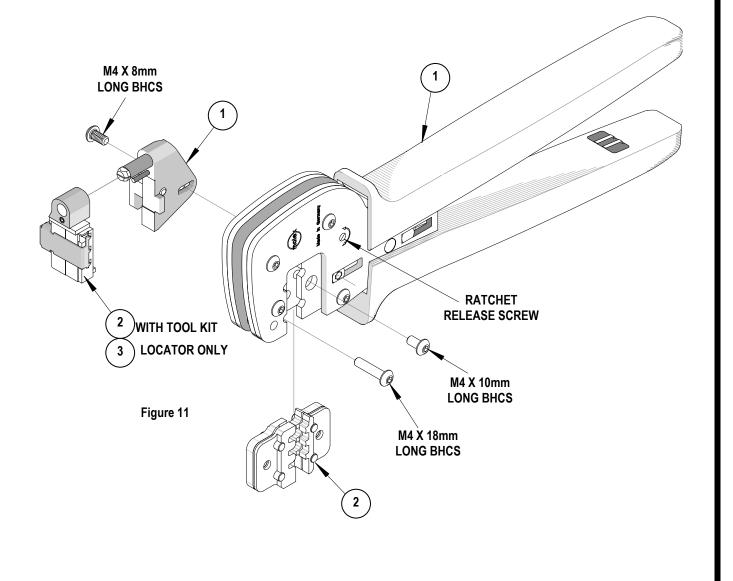

**CAUTION:** Keep fingers away from the crimping area when operating this tool. It may cause severe injury.

**CAUTION:** Wear safety glasses when operating or serving this tool.
