*It glows when it blows.*

*DAY OR NIGHT WHEN A FUSE BLOWS  
"SMART GLOW FUSE" INDICATES  
IMMEDIATELY WHICH FUSE NEEDS  
REPLACING. THE SMART GLOW FUSE IS  
THE INTELLIGENT CHOICE.*

**IDEAL** for troublesome circuits  
where fuses often blow

**SNAPS** into place  
without the use of tools

**EASY** identification of blown fuses  
in hard to reach locations

**COLOR-CODED** amperage ratings  
for instant identification

**CONVENIENT** packaging options  
include popular sizes and multipacks

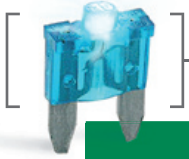

Smart Glow fuses are innovative automotive style fuses (ATO, Mini, Maxi and glass tube) that feature an indicator light that glows when the fuse is blown, saving time to troubleshoot an open circuit.

Hard to find blown fuses in dimly-lit dashboards are easier to identify, giving fleet maintenance departments the ability to quickly return vehicles to operation.

They are designed to be drop-in replacements for existing automotive applications, but can be used in any low voltage application up to 100 amperes where indication is beneficial.
