

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Papilio One 250K

SKU 102990010

Description

Papilio is an open-source FPGA project intended for education, hobbyists, engineers, or anyone interested in learning Digital Electronics in a friendly community.

The Papilio One 250K comes fully assembled with a Xilinx XC3S250E and 4Mbit SPI Flash memory.

Education

The Papilio provides an easy introduction to FPGA, Digital Electronics, and SOC (System on a Chip) design.

Hobbyists

Quickly learn client-level programming to build your own supercharged parallel processing projects.

Engineers

Get ideas up and running quickly with simple hardware designed for rapid prototyping.

Wings

The Papilio One provides six 8-bit Wing slots that allow the use of premade hardware modules, community designed modules, or your own custom designed modules.

Which Size?

Not sure whether to purchase the Papilio One 250K or Papilio One 500K? Take a look at this comparison page.

Papilio Community
