

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Klippon® STB – Stainless Steel Enclosures

NEW

For many decades the name Klippon® has been synonymous for competence and quality in our proven supply of enclosures and customer solutions for standard industrial and hazardous environment applications. This philosophy continues with our Klippon® STB range of stainless steel enclosures.

Ideally suited to the transportation, energy and process industries; the Klippon® STB is a natural compliment to our existing Klippon® enclosures product portfolio.

The enclosures are approved to international standards e.g. EN 62208 and EN 60079-0/7 (ATEX)

Some of the many advantages of these enclosures are:

- High temperature silicone gasket fitted as standard (improved temperature range –50 °C to +120 °C)
- Flexible internal terminal rail mounting options
- Gasket compression control ensuring gasket lifetime performance is not compromised
- Earth stud fitted to body and lid
- Laser welding for quality finish and results
- Mounting lugs pre-fitted and ensure secure product mounting

Improved product features – to meet your demands

1 Flexible internal mounting options

C-Profile (TAS 20) rail fitted as standard with M5 sliding fixing nuts included to ensure stability of rail assembly and to help provide the maximum possible internal working area.

2 High temperature gasket

A high temperature silicone gasket offers enhanced product performance in extreme temperature conditions (–50 °C to +120 °C).

3 Gasket compression control

Guarantees Ingress Protection (IP) performance and ensures that the gasket is not compromised during use.

5 Mounting lugs

Mounting lugs are pre-fitted as standard and are designed to be secure in operation (vibration and shock tested).

7 Laser welding for quality results

Provides consistent IP protection and maintains a quality finish.

4 Earth stud fitted inside lid

Provides earthing of hazardous potential of the removable lid as required by the latest industrial and ATEX standards.

6 Internal/External Earth Stud

No ingress path and eliminates any potential for IP failure in the field through the earth stud.

8 International approvals

Approved for use within hazardous areas (including Ex e - increased safety) applications.

Sliding Fixing Nuts	Part Number
SFNS5 VKMU M5 SW16	0433500000

Notes: Each enclosure is supplied with a set of sliding nuts + washer+ screws M5, to fix the mounting rail TS 35 or 32 onto the C-Profile

Comments ** Cable entries based on Weidmüller's standard IP68 cable glands
– For specific hazardous area requirements please contact Weidmüller for a copy of the full certificate

Steel enclosures

Klippon® TB

- 12 standard sizes (two depths)
- 316L (1.4404) electropolished stainless steel
- High temperature silicone gasket
- High Ingress Protection (IP66/67)

Klippon® JB

- 10 standard sizes, bottom gland plate (3 depths)
- 316L (1.4404) brushed stainless steel
- For harsh and industrial applications
- Foamed high temperature silicone gasket
- High Ingress Protection – IP66

Klippon® STB

- 8 standard sizes
- 316L (1.4404) stainless steel
- Robust design for heavy duty applications

Aluminium enclosures

Klippon® K

- 19 standard sizes
- High quality aluminium alloy (natural or painted finish)
- High Ingress Protection – IP66

Polyester enclosures

Klippon® POK

- 17 standard sizes
- Durable Glass Reinforced Polyester (GRP)
- Halogen and cadmium free

TBF-Series

- 9 standard sizes
- Durable Glass Reinforced Polyester (GRP)
- Featuring either grey or transparent lid

Polycarbonate enclosures

MPC-Series

- 9 standard sizes
- Universal small polycarbonate enclosures
- Featuring either grey or transparent lid

FPC-Series

- 6 standard sizes
- Large polycarbonate enclosures
- Featuring either grey or transparent lid
