Stacking Header for Raspberry Pi - 2x13 Extra Tall

PRODUCT ID: 1112

- **Description**

Stack multiple plates, breakouts etc onto your Raspberry Pi with this custom-made extra-tall and extra-long 2x13 female header. The female header part has extra spaces to make it 13.6mm tall: when placed on your Pi, a PCB will clear the Ethernet and USB jacks. The stacky pin part is also extra-long, 9.7mm, so that when a standard 1.5mm thickness PCB is installed, there will be 8mm remaining, plenty to plug into.

You'll get one header per order.

This socket-header is specifically for the 2x13 header on the Pi Model A and B. If you have a model B+, check out the 2x20 version here, which connects to all the B+ pins!

- **Technical Details**

- Pin spacing: 2.5mm / 0.1"
- Pin thickness: 0.6mm / 0.02"
- Weight: 4.2g
