TIP EXTRACTION

FT12 and FT12-PF are high vacuum filter units that eliminate smoke and gas from hand soldering processes. The filter units improves the working environment and protects the operators health. Unique clip-on kits, made to fit most of the soldering tools available on the market, make operation simple and flexible.

FT12 and FT12-PF are filter units with two inlets for two soldering irons. FT12-PF has an integrated pre filter cassette for applications with a large amount of particles.
