## : ©hipsmall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation, and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Adhesive Transfer Tape with Quick Bonding Adhesive 360 9626•9627

$$
\text { Technical Data November, } 2009
$$

$3 \mathrm{M}^{\mathrm{TM}}$ Adhesive Transfer Tapes with $3 \mathrm{M}^{\mathrm{TM}}$ Quick Bonding Adhesive 360 provides high bond strength to most surfaces, including many low surface energy plastics such as polypropylene and powder coated paints.

| Construction | Product <br> Number | Adhesive Type/ Thickness | Liner Color, Type, Print | Liner Caliper |
| :---: | :---: | :---: | :---: | :---: |
|  | $3 \mathrm{M}^{\text {™ }}$ Adhesive <br> Transfer Tape 9626 | $\begin{gathered} 0.002 " \\ (0.05 \mathrm{~mm}) \end{gathered}$ | Natural, 60\# Glassine | $\begin{gathered} 0.0032 " \\ (0.08 \mathrm{~mm}) \end{gathered}$ |
|  | $3 M^{\text {TM }}$ Adhesive <br> Transfer Tape 9627 | $\begin{gathered} 0.005 " \\ (0.13 \mathrm{~mm}) \end{gathered}$ | Natural, 60\# Glassine | $\begin{gathered} 0.0032 " \\ (0.08 \mathrm{~mm}) \end{gathered}$ |

Note: The caliper listed is based on a calculation from manufacturing controlled adhesive coat weights using a density of $1.071 \mathrm{~g} / \mathrm{cc}$.

| Minimum length | 72 yds . (66 m). |  |

## 3M ${ }^{\text {TM }}$ Adhesive Transfer Tape with Quick Bonding Adhesive 360 <br> 9626•9627

Features

- Excellent adhesion to difficult to bond to surfaces such as HDPE, LDPE, and PP.
- Super quick stick.
- Higher adhesion from a thinner tape.
- Excellent solvent resistance.
- High temperature performance.

## Application Techniques

Bond strength is dependent upon the amount of adhesive-to-surface contact developed. Firm application will assist the adhesive in developing intimate contact with the bonding surface. To accelerate the adhesion process, additional heat, up to $130^{\circ} \mathrm{F}\left(54^{\circ} \mathrm{C}\right)$, may be used.

To obtain optimum adhesion, the bonding surfaces must be clean, dry, and well unified. Some typical surface cleaning solvents are isopropyl alcohol or heptane.*

Ideal tape application temperature range is $70^{\circ} \mathrm{F}$ to $100^{\circ} \mathrm{F}\left(21^{\circ} \mathrm{C}\right.$ to $\left.38^{\circ} \mathrm{C}\right)$. Initial tape application to surfaces at temperatures below $50^{\circ} \mathrm{F}\left(10^{\circ} \mathrm{C}\right)$ is not recommended because the adhesive becomes too firm to adhere readily. However, once properly applied, low temperature holding is generally satisfactory.
*When using solvents, extinguish all ignition sources, including pilot lights, and follow the manufacturers precautions and directions for use. These cleaning recommendations may not be compliant with the rules of certain Air Quality Management Districts in California; consult applicable rules before use.

## Environmental Performance

Humidity Resistance: High humidity has minimal effect on adhesive performance. No significant reduction in bond strength is observed after exposure for 7 days at $90^{\circ} \mathrm{F}\left(32^{\circ} \mathrm{C}\right)$ and $90 \%$ relative humidity.
UV Resistance: When properly applied, nameplates and decorative trim parts are not adversely affected by exposure.
Water Resistance: Immersion in water has no appreciable effect on the bond strength. After 100 hours at room temperature, the high bond strength is maintained.
Temperature Cycling Resistance: High bond strength is maintained after cycling four times through:

8 hours at $194^{\circ} \mathrm{F}\left(90^{\circ} \mathrm{C}\right)$
16 hours at $-40^{\circ} \mathrm{F}\left(-40^{\circ} \mathrm{C}\right)$
8 hours at $100.4^{\circ} \mathrm{F}\left(38^{\circ} \mathrm{C} / 100 \% \mathrm{RH}\right)$
16 hours at $-40^{\circ} \mathrm{F}\left(-40^{\circ} \mathrm{C}\right)$
Chemical Resistance: When properly applied, nameplate and decorative trim parts will hold securely after exposure to numerous chemicals including oil, mild acids, and alkalis.

Application Ideas

- Foam to powder coated painted surfaces.
- Low surface energy plastic adhesion.

## Application Equipment

To apply adhesives in a wide web format, lamination equipment is required to ensure acceptable quality. To learn more about working with pressure-sensitive adhesives please refer to technical bulletin, $3 M^{\mathrm{TM}}$ Lamination Techniques for Converters of Laminating Adhesives (70-0704-1430-8).

For additional dispenser information, contact your local 3 M sales representative, or the toll free 3M sales assistance number at 1-800-362-3550.

| Storage | Store in original cartons at $70^{\circ} \mathrm{F}\left(21^{\circ} \mathrm{C}\right)$ and $50 \%$ relative humidity. |
| :---: | :---: |
| Shelf Life | If stored under proper conditions, product retains its performance and properties for two years from date of manufacture. |
| Technical Information | The technical information, recommendations and other statements contained in this document are based upon tests or experience that 3M believes are reliable, but the accuracy or completeness of such information is not guaranteed. |
| Product Use | Many factors beyond 3 M 's control and uniquely within user's knowledge and control can affect the use and performance of a 3 M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application. |
| Warranty, Limited Remedy, and Disclaimer | Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3 M warrants that each 3 M product meets the applicable 3 M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3 M product does not conform to this warranty, then the sole and exclusive remedy is, at 3 M 's option, replacement of the 3 M product or refund of the purchase price. |

## Limitation of Liability

Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.

This Industrial Adhesives and Tapes Division product was manufactured under a 3M quality system registered to ISO 9001:2000 standards.
