Designed For Lead-Free & General Purpose Soldering

Aven's powerful new soldering station with LCD display has been designed for a wide temperature range (from 160 - 480 C) and is ideal for general purpose soldering as well as specialized lead-free soldering applications. The soldering iron tool heats rapidly from room temperature to 350C in as little as 30 seconds. With its high-quality sensor the heat exchange system guarantees precise temperature control at the soldering tip. This digital temperature controlled soldering station includes a strong, deluxe iron compartment that features a pull out sponge tray and coiled brass tip cleaner that is hard enough to remove debris from the solder tip, yet soft enough not to damage it.
