# USB DIY Slim Connector Shell – Mini-B Plug

PRODUCT ID: 1825

---

## DESCRIPTION

Make your own USB connections without slicing apart a USB cable and soldering those thin wires inside. This is the 'slim' version of the DIY Mini-B Male Plug connector. It's a little more elegant because instead of snapping two pieces together the connector press-fits into the overmolding for a modern look. We also carry the slim size in USB-A male, microB male, and USB-microB female.

Normal DIY "USB shells" are available in USB A plug, micro B, mini B and USB A socket.

Each shell comes with a plastic shell and a proper connector with easy-to-solder tabs.
