

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

LED RING LIGHT, DIMMING

Dimmable LED Ring Light maximizes light output and distribution while preventing harmful glare and reflections. Its modular construction, paired with brilliant 40 LED display and 6000°K color temperature, makes this ring light ideal for the inspection of surface cracks and defects as well as lead-free inspection. 9-watts of pure-white LED light produce up to 3600 footcandles at 4.5" working distance and ease the examination of welds, solder joints, flux residues and hairline stress cracks. A removable/replaceable diffuser allows for easy cleaning. Dimmable to 15% output. A 50,000 hour lumen maintenance (lamp life) makes this LED ring light suitable as a replacement for traditional 150W Fiber Optic Illuminators.
