SlimFix is a conductor and cable marker system with a space-saving design. The markers can be fitted even after the wiring has been installed. They are made from halogen-free material and conform to fire protection classification V0/V2. SlimFix is an acknowledged and approved marker type in transport engineering. Attaching even small markers is no problem with the SF tool.

- Halogen-free material
- Fire protection classification V0/V2
- Approved and listed markers for traffic engineering
- Attach to conductor cross-sections above 16.0 mm² with cable ties
- Markers in proven multicard format
