

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Enhance any application aesthetically, electrically, and mechanically with brass braid that combines good looks with physical and EMI protection

With a look that lends itself to high-end projects, FIT brass braid is an attractive alternative to standard copper braid. It provides excellent EMI protection and generous expansion for flexibility during installation. It is ideal for medical, food + beverage, and semiconductor applications because it continuously reduces bacterial contamination, achieving 99.9% reduction within two hours of exposure.

- RoHS compliant
- Attractive brass finish gives high-end look
- Tubular shape for easy installation and termination
- Four sizes from 1/8 inch diameter to 1/2 inch
- Excellent EMI protection
- Can be used as a low-resistance ground strap
- Corrosion, salt water, abrasion, and cut-through resistant
- Brass material is an EPA-registered antimicrobial and germicidal copper alloy*
