

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Antenna - FL LCX CABLE 24 E - 2702553

Please be informed that the data shown in this PDF Document is generated from our Online Catalog. Please find the complete data in the user's documentation. Our General Terms of Use for Downloads are valid (http://phoenixcontact.com/download)

The leaky wave conductor is a "wireless cable" which acts as an antenna and radiates over the entire length. The range is limited here. Track-guided systems can thus be properly supplied even under complex conditions.

Key Commercial Data

Packing unit	1 STK
Weight per Piece (excluding packing)	1.000 g
Custom tariff number	85442000
Country of origin	Belgium

Technical data

Dimensions

Diameter	15.5 mm
----------	---------

Ambient conditions

Ambient temperature (operation)	-40 °C 85 °C
Ambient temperature (storage/transport)	-70 °C 85 °C

General

With connecting cable	yes
Frequency range	2.4 GHz
Cable resistance	1.48 Ω/km (DC inner conductor)
	2.8 Ω/km (DC phase conductor)
Gain	0 dBi
Connection method	open end
Cable weight	232.00 g/m
Smallest bending radius, fixed installation	min. 200 mm (One-time bending)
Cable, attenuation	14.7 dB/100 m, longitudinal attenuation (2.4 GHz)

Antenna - FL LCX CABLE 24 E - 2702553

Technical data

General

	60 dB, coupling attenuation 95 % (2.4 GHz)
Material	Al Cu wire (inner conductors)
	Copper film (Phase conductors)
	PE foam (Insulation)
Assembly instructions	Recommended clamp distance 0.5 m
Mounting type	Wall mounting

Accessories

Accessories

Assembly tool

Antenna - FL LCX CABLE 24 E - 2702553

Accessories

Alignment tool - FL LCX TOOL E - 2702519

Special alignment tool for the accurate mounting of connectors on the leaky wave conductors.

Coaxial adapter

Connector - FL LCX CON-N-F E - 2702518

The length of the leaky wave conductor must be adapted to the special length in the application. Connectors are then installed at both cable ends. Wireless devices can be connected to these via a flexible connecting cable.

Mounting material

Cable tie - FL LCX CLAMP E - 2702520

Mounting clamp for fastening the FL LCX CABLE METER leaky wave conductor.

Terminal resistor

Termination resistor - FL LCX 50-OHM - 2884978

A termination resistor must be screwed on at the end of the leaky wave conductor which does not contain any wireless part. It guarantees an antenna cable termination with the correct impedance and is important for every wireless installation.
