

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

INTERBUS-ST analog input module, 8 inputs, TC, 2-wire connection, IP20 protection, consisting of: Terminal part with screw connection and module electronics

Product description

INTERBUS ST analog input modules for temperature and resistance measurement

These analog input modules are suitable for recording temperature signals.

Commercially available temperature measuring resistors or thermocouples can be connected.

In addition to the various types of sensors, different characteristics can also be programmed. Further features are:

- A new shielding concept for sensors makes it possible to meet more severe EMC requirements. For each input, there is a separate shield connection. External circuit elements are not necessary.
- Diagnostic LEDs provide information on the operating status at any time.
- All modules can be individually labeled on the large pull-out labeling field. The insert cards can be prepared by hand, or by plotter or printer.
- In the event of failure or malfunction, the electronics of the module can be easily replaced. The passive termination block remains mounted on the rail. This means that the replacement process can be carried out in a just a few seconds and without the need for tools.
- The fuses are accessible from outside, so that a fault can be cleared quickly.
- The connection to protective earth ground is made directly via the DIN rail.
- The conventional labeling materials (Zack strip ZB-6, etc.) can be used to label the termination blocks.

Key commercial data

Packing unit	1 pc
GTIN	 4 017918 153823
Weight per Piece (excluding packing)	598.4 GRM
Custom tariff number	85389091
Country of origin	Germany

Technical data

Dimensions

Width	118 mm
Height	117 mm
Length	116 mm

I/O module - IB ST 24 UTH 8 - 2724902

Technical data

Ambient conditions

Degree of protection	IP20
----------------------	------

Interfaces

Interface	ST local bus
Connection method	ST local bus connector
Transmission speed	500 kBit/s

Power supply

Communications power U_L	9 V DC (from the ST local bus)
I/O voltage	24 V DC
Typical current consumption	110 mA (from the ST local bus)
	35 mA (to U_S)
Max. current consumption	135 mA (from the ST local bus)
	85 mA (to U_S)

Electrical isolation

Test section	Bus/Inputs 500 V AC 50 Hz 1 min
	Supply voltage/inputs 500 V AC 50 Hz 1 min
	Supply voltage/Ground conductor 500 V AC 50 Hz 1 min
	I/O voltage/Ground conductor 500 V AC 50 Hz 1 min

Inputs

Quantization	0.1 K (for Celsius scale, 0.056 K for Fahrenheit scale)
Number of inputs	8
Connection method	2-wire
Measuring principle	Sigma/Delta process
Measured value representation	16 bit two's complement
Measured value resolution	16 bits
Basic error limit	0.01 %
Process data update	see data sheet
Sensor types that can be used (TC)	J, K, L, U, B, E, N, R, S, T, C, W, HK

General

Weight	465 g
Mounting type	DIN rail
Designation	Termination block
Connection method	Screw connection
Conductor cross section solid min.	0.2 mm ²
Conductor cross section solid max.	2.5 mm ²
Conductor cross section stranded min.	0.2 mm ²

I/O module - IB ST 24 UTH 8 - 2724902

Technical data

General

Conductor cross section stranded max.	2.5 mm ²
Conductor cross section AWG/kcmil min.	24
Conductor cross section AWG/kcmil max	12
