Hopkey - RAD-ISM-900-HOP-US - 2867539

Please be informed that the data shown in this PDF Document is generated from our Online Catalog. Please find the complete data in the user's documentation. Our General Terms of Use for Downloads are valid (<http://phoenixcontact.com/download>)

The HOPKEY contains information such as the transmission frequencies used and the hop sequence. This information is required e.g. when installing an additional receiver / repeater in an existing system.

Product description

When the supply voltage is switched on, the information is transmitted to a non-volatile memory in the module from a plugged in HOPKEY. Then this HOPKEY can be used to "train" other receivers. In the last receiver, the HOPKEY can be preserved. If no HOPKEY is plugged in, the information in the module is used.

Product Features

Key commercial data

Packing unit	1 pc
Weight per Piece (excluding packing)	20.7 GRM
Custom tariff number	85299040
Country of origin	Canada

Technical data

Ambient conditions

Degree of protection	IP20
