

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

De-soldering Wick

March 2003

No-Clean Desoldering Wick

PRODUCT DESCRIPTION

LOCTITE® Product Multicore™ De-soldering Wick is designed for static-free desoldering and repair of PC boards without the need for subsequent cleaning.

We use a special halide-free vacuumised no-clean, flux-coated copper braid designed to improve wicking. It will not lose its efficiency even after prolonged storage in humid conditions. The wick remains flexible and will not flake. PCBs meet MIL-P-28809A Cleanliness Test without cleaning.

- Faster and increased solder absorption
- Negligible residues which are non-corrosive, clear and non-hydroscopic
- Heat stable coating
- Contains small amount of halide-free synthetic resin flux that does not need to be removed.

Directions for Use

Lay de-soldering wick over the solder requiring removal and place the soldering iron tip on top of the copper braid. The braid and solder beneath will gradual heat until the solder melts and is absorbed into the braid by capillary action. Remove the braid, cut off the solder-filled length and dispose properly.

Packaging:

Multicore™ De-soldering Wick is supplied in static dissipative plastic spools of 1.5m (5ft) or 3m (10ft) spools.

Packaged ten spools per sleeve and five sleeves per box.

Also available in 100ft econo-spools.

DESOLDERING WICKS	
Size Reference	Approximate Width
NC-OO	0.8mm (0.03in)
NC-AA	1.5mm (0.06in)
NC-AB	2.2mm (0.08in)
NC-BB	2.7mm (0.1in)

Data Ranges
