Ethernet RJ45 Female Socket Push-Terminal Block

PRODUCT ID: 2912

Description

• If you need to connect an RJ45 cable (a.k.a Ethernet) to a board that doesn't have an Ethernet jack - this adapter will come in very handy! **No soldering required.** Just push the little buttons and slide in your stranded or solid-core wire. Note that these aren't recommended for actual Ethernet traffic, especially long term...but for basic power/data distribution, RJ45's are great!

This is the **Ethernet (RJ45) Female Jack Push-Terminal Block**. There is a standard RJ45 Ethernet jack on one end, and a push terminal block on the other.

We also have a (matching) Ethernet Male Plug Terminal Block.

Technical Details

- o Length (end to end): 36mm / 1.4"
- o Weight: 20.6g
