Ethernet RJ45 Male Plug Terminal Block

PRODUCT ID: 2913

Description

- If you need to connect an RJ45 cable (a.k.a Ethernet) to a board that with an Ethernet Jack - this adapter will come in very handy! **No soldering required.** Just use a slim screwdriver to open up the terminal blocks, slide in your stranded or solid-core wire and re-tighten. Note that these aren't recommended for actual Ethernet traffic, especially long term...but for basic power/data distribution, RJ45's are great!

This is the **Ethernet (RJ45) Male Plug Terminal Block**. There is a standard RJ45 Ethernet plug on one end, and a screw terminal block on the other.

We also have a (matching) Ethernet Female Jack Terminal Block.

Technical Details

- Length (end to end): 53.9mm / 2.12"
- Weight: 17.7g
