Card Edge & Press Fit Connectors Overview

Our Capabilities

We have been designing and manufacturing interconnect products for over 40 years. Today we supply a wide variety of products to customers across the globe. We understand our markets and customers and do provide off-the-shelf and customized products manufactured to the highest quality standards. Our Experience Makes the Difference.

Our cardEdge+ Connectors

Over the years our product offering has evolved and grown and we now have one of the largest ranges of interconnect products on the market. Our cardEDGE+ range is no exception and offers many features and benefits that allow customers more flexibility with their design.

They are suitable for applications such as Power Supplies, Storage Devices, Navigational Equipment, Industrial Controls and many more.

More Flexibility

Today we supply a wide variety of products and EDAC prides itself on its flexible approach in the design of connectors. We see this ability as our differentiator. Using our cardEDGE+ connectors means customers have additional design options and more opportunity to tailor their interconnect requirements to their actual needs.

- Additional contact terminations
- Extra mounting options
- Mutiple card guide solutions
- High temperature insulators
- Extra row spaces
- Multiple PCB footprints
- Choice of insulator colours
- Contact plating options
- Superior quality
- Competitively priced

We are proud of our capability to offer cardEDGE+ connectors manufactured to customers' specific requirements. We continually update and advance our products to ensure that our customers have access to the latest and best products available.
