The TORXPlus® Advantage

The TorxPlus® Drive System offers 100% improvement in driver bit fatigue & 25% average improvement in driver bit torsional strength. In addition its unique design provides optimum torque transfer and eliminates the need for excessive end load pressure while driving the fastener. The TorxPlus® configuration also virtually eliminates tool "camout" and slippage that can damage the head of the fastener and cause reduced tool life.

Not for use in standard Torx fasteners

- Broad Surface For Driving
- Features 0° Drive Angle Between The Fastener & Driver
- Greater Engagement Depth

Not for use in standard Torx fasteners

362 TORXPlus® Screwdriver With Wiha-SoftFinish Handle Round blade high alloy Chrome-vanadium-molybdenum tool steel, hardened, hard chromed. Wiha-Chromtop finish on tips.
