4 x AA Battery Holder with 2.1mm Plug

PRODUCT ID: 3784

Description

Here's another addition to our growing family of AA battery holders. A holder for four (4) AA batteries! It's got an 8" long power cable with a 2.1mm DC jack at the end, and, and, oh yes, it's in classy Adafruit black.

4 x AA battery packs are best used with development boards with 2.1mm DC jacks and can run with ~4.8V (4 x NiMH) to ~6V (4 x Alkaline). Great for powering boards with a ~4.5-6.5V DC input allowance as you'll see that range depending on how fresh the batteries are.

DC plug is 5.5mm OD, 2.1mm ID with center-positive polarity.

AA Batteries are not included, but we have lots of options in the store!

Technical Details

Holder Dimensions (excluding cable): 62.5 x 57.3 x 16mm
Cable length: 8" / ~200mm
