Technical Datasheet

3M[™] Respirator Cleaning Wipes, 504

3M[™] 504 Respirator Cleaning Wipes are designed to clean the surface dirt and deposits from a used half or full face respirator. When a respirator has been used for a brief period or has remained relatively clean during extended use, the 504 Wipes are an easy, convenient way to wipe off the surfaces and prepare the respirator for storage and use on the next occasion it is needed.

Features

- Pre-moistened towelettes for hygienically cleaning reusable respirators
- Alcohol free and individually packaged in sealed sachets
- Uses Benzalkonium Chloride a quaternary ammonium compound as a sanitiser.
- 100 wipes/box

Use Limitation:

- The 504 wipes an are ideal interim cleaning method however they should not replace a thorough cleaning process as part of regular care and maintenance of the respirator. For more information on cleaning a reusable respirator, refer to the 3M Respiratory Protection Guide or the relevant 3M Technical Update.
- Do not clean any elastomeric respirator with solvents. Cleaning with solvents may degrade some respirator components and reduce respirator effectiveness.
