

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## Cinch Connectivity Solutions

### Innovative interconnect solutions across the world.

Cinch Connectivity Solutions designs and manufactures a broad range of interconnect products with facilities around the world.

In operation since 1917, Cinch supplies high quality, high performance connectors and cables globally to the Commercial Transportation, Aerospace, Military and Defense, High End Computer, Oil & Gas and other industrial markets.

We aim to exceed our customer's expectations, and to continually provide innovative solutions to the rapidly changing needs of the markets, and customers, we serve.

# ModICE<sup>®</sup> Modular Connector Enclosures

ModICE<sup>®</sup> is a complete line of connector enclosures that offer sealed packaging solutions for rugged electronic control modules. The Cinch 1.5mm SHS system is the base interconnect technology.

The ModICE<sup>®</sup> Advantage:

- 3 distinct enclosure sizes (ME, SE, LE)
- Multiple header configurations (18, 30, 48 and 60 I/O)
- Available Options:
  - ME Header with integrated RF Ports (SMA, RP-SMA)
  - Headers with integrated ferrite filtering
  - Blank headers for specific customer applications
  - Enclosures with integrated heat sink (SE and LE)
  - Vented enclosures (Breather vent)
- Simple module assembly with snap-in header/PCB

**LE Enclosure**  
(PCB not provided  
by Cinch)

**ME-RF Enclosure**

**ME Enclosure**

**SE Enclosure  
with Vent**

## Product Specification

**Operating Temperature:** -40°C to +85°C

**Current:** 10 Amp @ 85°C

**Contact Resistance:** < 10mΩ

**Insulation Resistance:** > 1000 MΩ

**Sealing:** IP67, IP69K

**Temperature Life:** 1000 Hrs @ 85°C

**Current Cycling:** 500 Hrs @ 10 Amp, 500 cycles 45 min ON – 15 min OFF

**Vibration:** 10 to 2000 to 10 Hz with 15 g's peak level

**Shock:** 50 g's – 20 pulses

**Salt Spray:** 96 Hrs

**Temperature Humidity Cycling:** 320 Hrs

40 – 8 Hrs cycles -40°C to +85°C

**Fluid Resistance:** Resists to most fluids used in industrial applications

# ModICE® ME-RF

ModICE® ME-RF offers a unique enclosure cover (header) with integrated SMA connectors for quick connect of antenna and other RF devices.

Header Arrangement  
(Face View – 18 I/O shown)

Features include:

- Main connector - 18 or 30 I/O (with or without ferrite)
- 1 or 2 SMA
- Standard or Reverse Polarity SMA (50Ω)
- SMA soldered to PC board

# SHS Headers

SHS is a complete line of sealed rugged I/O connectors. This product family is designed to perform on electronic control modules that function in extreme environmental conditions commonly found on commercial and off-road vehicles and industrial equipment.

The SHS Header Advantage:

- Robust panel-mount PCB connector
- 4 header sizes (18, 30, 48 and 60 I/O)
- Integrated ferrite filtering available
- 1.5mm connector technology
- Multiple colors and keying configurations available

SHS Header  
48 I/O

# SHS Harness Connector

The SHS Harness Connector is the mate to ModICE® and SHS Headers.

The SHS Connector Advantage:

- 2 connector sizes (18, 30 way)
- 1.5mm terminal technology
- Push-to-seat terminals
- Integrated wire grommet seals with protective back-plate
- Terminal position assurance
- Robust jack-post mating to the header

# Custom Capabilities

## Connectors and Cable Assemblies

Over the years, Cinch has developed capabilities to support its customers most demanding applications. Our custom range of products include connectors and cable assemblies used in the Commercial Aircraft, Military/Aerospace, Supercomputing, On/Off Highway, Agriculture, and Industrial markets.

Please contact Cinch for your special connector and connectivity requirements.

**Connector Enclosure for  
Engine Controller**

**Cable Assemblies for  
4WD Transmission  
Actuators**

**High Pin-Count Connector for  
Electronic Controller**

**RF Enclosure  
Telematics**

**Diesel Pressure Sensor Cap  
CIN::APSE Compression Technology**

## Proven Excellence

For over 70 years, Cinch has been a supplier of quality connector and interconnect products to the computer, telecom, aerospace, military and transportation industries. We are a multi-national manufacturer with facilities in the US, Mexico and the UK supplying global customers.

Cinch applies its extensive expertise in interconnection technology to engineer and manufacture connectors, cables and harnesses using state of the art technology and tooling. Mechanical design is accomplished using Pro/E 3D solid modeling supported by nonlinear and linear Finite Element Analysis and Mold Flow software.

Our engineers utilize in-house capabilities in high frequency interconnect simulation, SPICE model generation and high frequency testing to develop the optimum product. All products are validated in our first article, mechanical, electrical and environmental test facilities ensuring the finished products meet our customers' most stringent specifications.

Simply stated, your connectors are manufactured in state of the art facilities that are committed to customer satisfaction and continuous improvement.
