# ESSENTRA

COMPONENTS

 NONWOVEN

## EPIX™ WIPES

Essentra's nonwoven EpiX™ Wipes are specially constructed for the toughest jobs—whether wet or dry.

- Durable
- Fast absorbing
- Tear resistant
- Leaves no residue
- Built for multiple uses
- Soft touch

Made from hydroentangled polypropylene and wood pulp, EpiX™ Wipes are far stronger and more durable than ordinary paper wipes. Adhesive- and binder-free manufacturing creates versatile, longer-lasting wipes that retain their strength when wet with water and most solvents. EpiX™ Wipes are available in three different weights to handle different levels of heavy-duty jobs.

### QUALITY STANDARDS

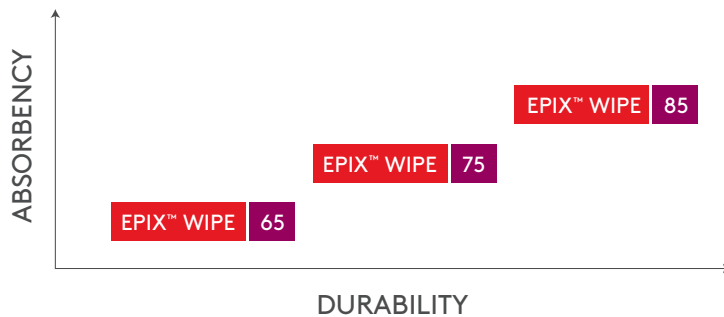

Essentra is a global pioneer in the manufacturing of wipes for critical environments. Quality is a prerequisite to everything we make. That means the dependability and performance of EpiX™ Wipes are unmatched.

### DISPOSABLE IS SAFER

Essentra's EpiX™ Wipes are designed to clean and absorb chemicals and heavy metals that can be common in many workplaces. These toxic substances never fully wash off of laundered shop rags, but linger as health hazards with each use. EpiX™ Wipes can be safely disposed of when a job is complete to avoid any future contamination.

### INDUSTRIES & APPLICATIONS

From common spills and food processing cleanup to industrial slime—EpiX™ handles it all.
