MXP Wirewrap

Part # 6002-210-008

- Designed to interface with the NI myRIO expansion port (MXP)
- Provides a prototyping area with 14 x 21 plated through-holes (100 mil spacing)
- Buss traces for GND, 3.3V, and 5V

The MXP Wirewrap provides a large 14x21 hole prototyping area on an expansion card compatible with the NI myRIO expansion port (MXP). The MXP Wirewrap functions as an I/O breakout, with bus traces for GND, 3.3V, & 5V on either side of the prototyping area. The MXP Wirewrap's connector is also keyed to ensure correct connection with your NI myRIO.

For more information on the NI myRIO, please visit www.ni.com/myrio.
