LENS/FILTERS FOR BEZEL ASSEMBLY

PRD Products uses only LEXAN HP® XXS graphic film. This high-performance coated film offers outstanding chemical/abrasion resistance, together with unique processing characteristics made especially for PRD Products. This highly durable, easily printed film creates new opportunities with excellent benefits:

- Flexible and forgiving UV processing
- Multiple topside selective texturing
- Colored topside texturing
- Extreme durability of coating and texture adhesion when exposed to strong house hold chemicals such as Wisk or Formula 409
- Excellent appearance

The color acrylic filters have a special non-glare surface to make viewing easier. Standard colors are red and clear for LED and LCD displays although any color is available on special order.
