

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Parallax Basic Soldering Kit

This complete soldering kit includes everything you need to solder your electronics projects. The kit even includes a Panavise Jr. vise holder and includes instructional "How to Solder" directions etched right on the acrylic vise base. The kit also includes a Hakko #508 soldering iron, small pair of diagonal cutters, a tip cleaning sponge, a roll of (leaded) solder, a roll of solder wick, four rubber mounting feet, a standoff holder for the solder roll, and mounting hardware. This kit include everything you need to assemble our mini Scribbler 2 LED Badge as well as our many board kits.

Key Features:

- Includes everything you need to start soldering up those DIY projects that require soldering
- "How to Solder" instructions etched right on the Base Plate perfect for beginners or a classroom environment
- Includes a sponge to keep the soldering iron tip clean to produce better solder joints
- Diagonal cutters are "flush cutting" which provides for superior lead
- Solder is NOT "lead free". It contains lead, and as such, allows for much more consistant solder joints
- Panavise holds your project solidly, an yet allows for easy "angle adjustment" when soldering complex circuits

Kit Contents:

- (1) Clear plastic storage/carrying case
- (1) Hakko #508 soldering iron
- (1) Precision laser cut acrylic vice base with soldering instructions etched right on the plate
- (1) Roll of solder wick
- (1) Roll of leaded solder
- (1) Panavise Jr. circuit board/component vise (mounts to the base plate)
- (1) Pair of diagonal cutters
- (1) Pair of safety glasses

Specifications:

- Voltage requirements 120 vac
- Current requirements 0.33 amps
- Dimensions: 6 x 6 x 11 in (15.2 x 15.2 x 28 cm)
- Operating temp range: 32 to +150 °F (0 to +66 °C)

Kit in Storage Case:
