Notes
Values without tolerance are average production values.
Motor not protected in case of reversed power voltage
(1) Cold motor, 20 °C ambient temperature, full speed
(2) Max torque for continuous operation at 20 °C, decrease this value for higher ambient temperature
(4) Pinion or pulley fitting are done at the Crouzet factory, before final assembly.
(6) Value without gearbox. With gearbox, the value increases and varies depending on grease temperature.
