Made in America

Figure 1. Reztore™ ESD Hand Lotion, Item No. 81080, ready-to-use 8 oz. bottle; Item No. 81082, 1 quart pump; Item No. 81081, 1 gallon pump

Description

Desco Reztore™ ESD Hand Lotion, item 81080/81081/81082 is specially formulated for use in the electronic manufacturing environment. The moisturizing hand lotion can be used to enhance the effectiveness of ESD control wrist straps, particularly for individuals with dry skin. It will absorb immediately into the skin without interfering with grip or dexterity. The lotion is free of chemicals that may adversely affect solderability or cause corrosion of electronic components. Reztore™ ESD Hand Lotion is available in 8 oz. plastic bottles (sold in cartons of twelve bottles), one quart bottles with pumps, or in one gallon bottles with pumps.

General Guidelines

Reztore™ antistatic hand lotion can be applied to hands and wrists to increase the conductivity of the skin and reduce skin dryness. It is not recommended for application to the face. The lotion is chemically and biologically stable and is free of soaps, glycerin, lanolin, free-salts, silicone and mineral oil. Avoid contact with eyes. If eye contact occurs wash with water.

Directions

Apply a small amount of Reztore™ ESD Hand Lotion onto the palm of the hand. Using your hands, rub the lotion into skin areas which are either dry or where increased conductivity is desired, especially on the wrists where the wrist strap will be in direct contact. Gently rub the lotion into the skin until it is absorbed. Remove the excess lotion with a towel.
