2 inch wide Tape Dispenser

- Use with Wescorp and other brand antistatic tapes
- For tapes with 3" Cores
- For tapes up to 2" wide
- Groundable chassis with cord

Use for dispensing low charging anti-static tape in ESD protected areas. Per ANSI/ESD S20.20, all conductors in an ESD protected area are to be grounded. Attach cord to snap on chassis and to common point ground to ground tape dispenser.

Note: The Tape Dispenser's reel is insulative reel. Tribocharging, the generation of electrostatic charges is caused by the contact and separation of surfaces. Therefore, it was determined that the cost of making a dissipative reel would add no value to the customer. The function of the insulative portion of the reel does not make contact and separation. The path-to-ground is via the Tape's adhesive and the Dispenser's serrated cutting blade.

Tape Dispenser, 2"
