

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

SOURIAU / 8291 Series

8291 contact series is composed of two contact sizes: #12 (\varnothing 2.4mm) contacts for application up to 26 Amperes and #8 (\varnothing 3.6mm) contacts for application up to 44 Amps.

Thanks to this power contact offering and dedicated connector layout, you can combine within the same connector signal and power lines. We can also offer dedicated connector and contacts for power lines for 2 + earth or 3 phases power connections when you want to dissociate signal and power.

High electrical performances are guaranteed thanks to a high conductive copper alloy body combined with two plating offers: gold over nickel plating or silver plating.

Pin and socket contacts are solid machined crimp snap-in and sockets for high performance levels.

COMPARE

Two contact sizes: #12 (\varnothing 2.4mm) and two contact sizes: #12 (\varnothing 2.4mm)

Possible to combine within the same connector signal and power lines
