The modular kit-type system represents a new generation of plug-in optos.

At the heart is an innovative PXS or PXZ relay base. The PLUGSERIES is particularly service-friendly and the ideal link between SSR and the application.

Conventional SSR and LED indicators are simply plugged in, retaining and disassembly clips provide a secure fixing.

Pre-assembled SSR couplers round off the product range.

Plug-in ZQV 2.5 cross-connectors enable multiplexers to be set up quickly thanks to simple side-by-side mounting.
