

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Technology & Engineering / Electronics

### Summary:

Where will you be when the zombie apocalypse hits? Trapping yourself in the basement? Roasting the family pet? Beheading reanimated neighbors?

No way. You'll be building fortresses, setting traps, and hoarding supplies, because you, savvy survivor, have snatched up your copy of *The Maker's Guide to the Zombie Apocalypse* before it's too late. This indispensable guide to survival after Z-day, written by hardware hacker and zombie anthropologist Simon Monk, will teach you how to generate your own electricity, salvage parts, craft essential electronics, and out-survive the undead.

Take charge of your environment:

- Monitor zombie movement with trip wires and motion sensors
- Keep vigilant watch over your compound with Arduino and Raspberry Pi surveillance systems
- Power zombie defense devices with car batteries, bicycle generators, and solar power

Escape imminent danger:

- Repurpose old disposable cameras for zombie-distracting flashbangs
  - Open doors remotely for a successful sprint home
  - Forestall subplot disasters with fire and smoke detectors
- own electricity, salvage parts, craft essential electronics, and out-survive the undead.

Communicate with other survivors:

- Hail nearby humans using Morse code
- Pass silent messages with two-way vibration walkie-talkies
- Fervently scan the airwaves with a frequency hopper

For anyone from the budding maker to the keen hobbyist, *The Maker's Guide to the Zombie Apocalypse* is an essential survival tool.
