

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Date Published: 2/29/2016

Pages: 360

Paperback

7 in W | 9.3 in H

Technology & Engineering / Electronics / Microelectronics

Summary:

The Arduino Project Handbook is a beginner friendly collection of 45 fun and interactive projects to build with the low cost Arduino microcontroller. Each project includes concise instructions with full-color illustrations, an easy-to-follow circuit diagram, and complete code.

As much a hands-on introduction to Arduino and electronics as it is an inspirational reference, in The Arduino Project Handbook you'll learn how to set up the Arduino hardware and software to interact with LEDs, sensors, motors, LCD screens, lock systems, and fuses. Even if you've never programmed or played with electronics before you'll quickly learn to build projects like a lie detector, ultrasonic robot, weather station, an electromagnetic ghost detector, a programmable rocket launcher, even a joystick controlled laser.

Clear visuals and plain-English instructions throughout make The Arduino Project Handbook perfect for beginners, hobbyists, parents, and educators.
