# imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

## DATA SHEET ANTI-SULFURATED CHIP RESISTORS AUTOMOTIVE GRADE

AA series ±5%, ±1%, ±0.5%

sizes 0201/0402/0603/0805/1206/ 1210/1218/2010/2512 RoHS compliant & Halogen free

Product specification –December 08, 2015 V.3

### YAGEO Phícomp

**Chip Resistor Surface Mount** AA SERIES

### SCOPE

This specification describes AA0201 to AA2512 chip resistors with leadfree terminations made by thick film process.

### **APPLICATIONS**

- Car electronics
- Engine control unit
- Body control system
- Safety devices

### **FEATURES**

- Superior resistance against sulfur containing atmosphere
- AEC-Q200 qualified
- Moisture sensitivity level: MSLI
- AA series soldering is compliant with J-STD-020D
- Halogen free epoxy
- RoHS compliant
- Reduce environmentally hazardous waste
- High component and equipment reliability
- The resistors are 100% performed by automatic optical inspection

### **ORDERING INFORMATION - GLOBAL PART NUMBER**

0201 to 2512

Part number is identified by the series name, size, tolerance, packaging type, temperature coefficient, taping reel and resistance value.

### **GLOBAL PART NUMBER**

### AA XXXX X X X X XX XXXX L

(2) (3) (4) (5) (7)(I)(6)

### (I) SIZE

#### 0201 / 0402 / 0603 / 0805 / 1206 / 1210 / 1218 / 2010 / 2512

### (2) TOLERANCE

 $D = \pm 0.5\%$  $F = \pm 1\%$ 

 $J = \pm 5\%$  (for Jumper ordering, use code of J)

### (3) PACKAGING TYPE

R = Paper/PE taping reel

K = Embossed taping reel

13 = 13 inch dia. Reel

### (4) TEMPERATURE COEFFICIENT OF RESISTANCE

- = Base on spec

### (5) TAPING REEL

07 = 7 inch dia. Reel

### (6) RESISTANCE VALUE

### I $\Omega$ to I 0 M $\Omega$

There are 2~4 digits indicated the resistance value. Letter R/K/M is decimal point, no need to mention the last zero after R/K/M, e.g. I K2, not I K20.

### (7) DEFAULT CODE

Letter L is the system default code for ordering only. <sup>(Note)</sup>

### Resistance rule of global part

| number<br>Resistance coding<br>rule | Example                                 |
|-------------------------------------|---|
| XRXX<br>(I to 9.76 Ω)               | R =   Ω<br> R5 =  .5 Ω<br>9R76 = 9.76 Ω |

| (100 to 976 Ω)                      | 976R = 976 Ω                            |
| XKXX                                | IK = 1,000 Ω                            |
| (1 to 9.76 K <b>Ω)</b>              | 9K76 = 9760 Ω                           |
| XMXX                                | IM = 1,000,000 Ω                        |
| (1 to 9.76 MΩ <b>)</b>              | 9M76= 9,760,000 Ω                       |
| XXMX<br>(10 MΩ <b>)</b>             | $10M = 10,000,000 \Omega$               |

### **ORDERING EXAMPLE**

The ordering code for an AA0402 chip

resistor, value 100 K $\Omega$  with ±1% tolerance, supplied in 7-inch tape reel is: AA0402FR-07100KL

#### NOTE

- I. All our R-Chip products are RoHS compliant and Halogen free. "LFP" of the internal 2D reel label states "Lead-Free Process"
- 2. On customized label, "LFP" or specific symbol can be printed.

### ΝΟΤΕ

YAGEO Phicomp

For further marking information, please refer to data sheet "Chip resistors marking". Marking of AA series is the same as RC series.

Product specification

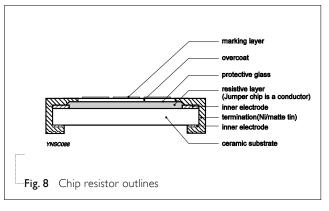

З

Chip Resistor Surface Mount AA SERIES 0201 to 2512

**CONSTRUCTION** 

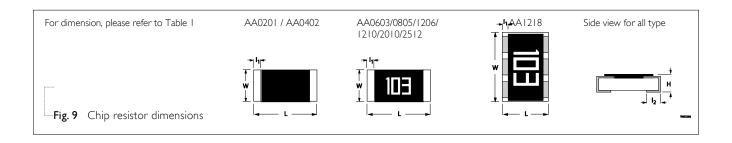

The resistors are constructed on top of an automotive grade ceramic body. Internal metal electrodes are added at each end and connected by a resistive glaze. The resistive glaze is covered by a lead-free glass. The composition of the glaze is adjusted to give the approximately required resistance value and laser trimming of this resistive glaze achieves the value within tolerance. The whole element is covered by a protective overcoat. Size 0603 and bigger is marked with the resistance value on top. Finally, the two external terminations (Ni / matte tin) are added, as shown in Fig.8.

### OUTLINES

### **DIMENSIONS**

| Table I | For outlines, please refer to Fig. 9 |            |            |            |                     |

| Embossed taping<br>reel (K) | 7" (178 mm)       |        |        |        |        |        |        | 4,000  | 4,000  | 4,000  |

#### NOTE

1. For paper/PE/embossed tape and reel sp@cifications/d@nensions, please refer to data sheet "Chip resistors packing".

### FUNCTIONAL DESCRIPTION

### **OPERATING TEMPERATURE RANGE**

Range: -55 °C1to +155 °C $\Omega$ 

#### **POWER RATING**

Each type rated power at 70 °C: AA0201=1/20W (0.05W) AA0402=1/16 W (0.0625W) AA0603=1/10 W (0.1W) AA0805=1/8 W (0.125W) AA1206=1/4 W (0.25W) AA1210=1/2 W (0.5W) AA1218=1 W AA2010=3/4 W (0.75W) AA2512=1 W

### P (%Prated 100 50 -55 0 50 70 100 125 Tamb (°C) Fig. 10 Maximum dissipation (P<sub>max</sub>) in percentage of rated power as a function of the operating ambient temperature (T<sub>amb</sub>)

### **RATED VOLTAGE**

The DC or AA (rms) continuous working voltage corresponding to the rated power is determined by the following formula:

 $V = \sqrt{P \times R}$ 

Or Maximum working voltage whichever is less

#### Where

V = Continuous rated DC or AA (rms) working voltage (V)

Ω

- P = Rated power (W)
- $R = Resistance value (\Omega)$

### **REVISION HISTORY**

| REVISION  | DATE          | CHANGE NOTIFICATION | DESCRIPTION                              |
|-----------|---------------|---------------------|--|
| Version 3 | Dec. 08, 2015 | -                   | - Update Dielectric Withstanding Voltage |
| Version 2 | Apr. 09, 2015 | -                   | - Modified FOS test procedure            |
| Version I | Jan. 27, 2015 | -                   | - Dimensions update                      |
| Version 0 | Feb. 27, 2014 | -                   | - First issue of this specification      |

Chip Resistor Surface Mount | AA | SERIES | 0201 to 2512

### LEGAL DISCLAIMER

Yageo, its distributors and agents (collectively, "Yageo"), hereby disclaims any and all liabilities for any errors, inaccuracies or incompleteness contained in any product related information, including but not limited to product specifications, datasheets, pictures and/or graphics. Yageo may make changes, modifications and/or improvements to product related information at any time and without notice.

Yageo makes no representation, warranty, and/or guarantee about the fitness of its products for any particular purpose or the continuing production of any of its products. To the maximum extent permitted by law, Yageo disclaims (i) any and all liability arising out of the application or use of any Yageo product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for a particular purpose, non-infringement and merchantability.

Yageo statements regarding the suitability of products for certain types of applications are based on Yageo's knowledge of typical operating conditions for such types of applications in a generic nature. Such statements are neither binding statements of Yageo nor intended to constitute any warranty concerning the suitability for a specific customer application or use. They are intended for use only by customers with requisite knowledge and experience for determining whether Yageo products are the correct products for their application or use. In addition, unpredicatable and isolated cases of product failure may still occur, therefore, customer application or use of Yageo products which requires higher degree of reliability or safety, shall employ additional protective safeguard measures to ensure that product failure would not result in personal injury or property damage.

Yageo products are not designed for application or use in medical, life-saving, or life-sustaining devices or for any other application or use in which the failure of Yageo products could result in personal injury or death. Customers using or selling Yageo products not expressly indicated for above-mentioned purposes shall do so at their own risk and agree to fully indemnify Yageo and hold Yageo harmless.

Information provided here is intended to indicate product specifications only. Yageo reserves all the rights for revising this content without further notification, as long as products are unchanged. Any product change will be announced by PCN.
