

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

MEB/MEB II UART-to-USB Adapter Board Information Sheet

The MEB/MEB II UART-to-USB Adapter Board (AC320101) uses the MCP2200 Breakout Module (ADM00393) to convert USB-to-UART signals that can be accessed directly by the PICtail™ connector on either the Multimedia Expansion Board (MEB) DM320005 or the Multimedia Expansion Board II (MEB II) DM320005-2.

The four jumpers on the board can be used to route the UART signals to either the MEB or MEB II.

For more information, refer to the “MCP2200 Data Sheet” (DS20002228) and the MPC2000 Breakout Module, which are available for download from the Microchip web site at:

<http://www.microchip.com/DevelopmentTools/ProductDetails.aspx?PartNO=ADM00393>.

Table 1 shows the mapping between the PICtail Connector (J1) and the MEB/MEB II configurations.

TABLE 1: HEADER INTERFACE MAPPING

PICtail™ (J1) Pin #	MEB Configuration		PIC32MX Signal Name	MEB II Configuration		PIC32MZ Signal Name
	Signal @ J3	Pin Function		Signal @ J2	Pin Function	
1	+3.3V	+3.3V	+3.3V	+3.3V	+3.3V	+3.3V
