Jig Board Clamps

Other System Attachments

Raceways

Frame & Stringer
Clip-On Supports

Amphenol has over 30 years experience in System Attachment technology, serving the Aerospace, Military, Industrial and extreme environment markets. The company produces high quality, low cost products and prides itself on timely and accurate delivery.

Designed for pre-installation wire harness assembly, the Jig Board Clamps from Amphenol outlast and outperform other jig board clamping devices in the market. Made of Acetal, our durable clamps maintain their original shape after continued use, yet the smooth design of their edges diminish wear on the harnesses as they're being assembled. Developed in multiple sizes, our Jig Board Clamps can accommodate a wide range of cable diameters, while the one-piece design enables efficient inventory management. Amphenol's clamps make wire harness assembly simple and convenient – saving both time and money.

Features & Benefits:

- Strong and durable—lasts a long time
- Various sizes—accommodates a wide range of wire diameters
- Easy to use
- Smooth edges—limits wire chaffing/wear & tear
- One-Piece design
- No elastic band or straps required

Let us help you find the solution.
