imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Pulse transformers

For LAN interface (10GBASE-T)

ALT4532H

4532 [1812 inch]*

* Dimensions Code JIS[EIA]

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

 The storage period is less than 12 months. Be sure to follow the sto less). If the storage period elapses, the soldering of the terminal electrode 								
\bigcirc Do not use or store in locations where there are conditions such as	gas corrosion (salt, acid, alkali, etc.).							
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature does not exceed 150°C. 	e difference between the solder temperature and chip temperature							
Soldering corrections after mounting should be within the range of the conditions determined in the specifications. If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.								
When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.								
Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set therma design.								
 Carefully lay out the coil for the circuit board design of the non-magnetic shield type. A malfunction may occur due to magnetic interference. 								
\bigcirc Use a wrist band to discharge static electricity in your body through	the grounding wire.							
\bigcirc Do not expose the products to magnets or magnetic fields.								
\bigcirc Do not use for a purpose outside of the contents regulated in the de	elivery specifications.

TRANSFORMERS

Pulse transformers

For LAN interface (10GBASE-T)

Product compatible with RoHS directive Halogen-free Compatible with lead-free solders

Overview of the ALT series

FEATURES

○ The ALT series contains wound chip type pulse transformers developed for LANs.

O Compatible with 10GBASE-T.

O High-quality product that uses auto winding.

 \bigcirc Conforms to the RoHS directive.

APPLICATION

LAN interfaces of various devices including network devices, communication equipment, digital consumer electronics, etc.

PART NUMBER CONSTRUCTION

ALT	4532 H		121	121 T	
Series name	L×W×H dimensions (mm)	Product internal code	Inductance (μΗ min.) at 100kHz/No bias	Packaging style	Internal code
	4532 4.5×3.2×2.9	Н	121 120	T Taping	

OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Temperat	ure range	Package quantity	Individual weight
Туре	Operating temperature*	Storage temperature**		
	(°C)	(°C)	(pieces/reel)	(mg)
ALT4532H	-40 to +85	-40 to +85	2,000	160

* Operating temperature range includes self-temperature rise.

** The storage temperature range is for after the assembly.

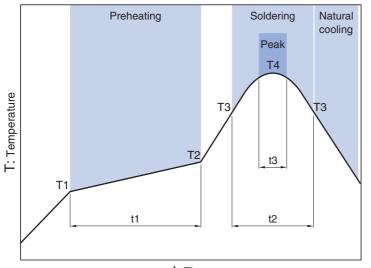

O RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

O Halogen-free: Indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.
