## ASG000 (Karoo Backpack)

The Karoo (ASG000) Backpack is a conveniently placed breadboard with all of the module pins drawn out onto the backpack to help expedite prototype building.

### Overview

The **ASG000 'Karoo'** is a member of the Backpack accessory series for the 'Moray' development tools and evaluation boards.

The Backpack family is a series of accessory boards designed to help ZentriOS application developers quickly generate prototypes based on the Moray development board. Backpack accessory boards offer different sensors, displays, and I/O devices providing fast and convenient platforms for prototyping.

The **Karoo (ASG000) Backpack** is a conveniently placed breadboard with all of the module pins drawn out onto the backpack to help expedite prototype building.
