TINYDUINO BASIC KIT - LITHIUM VERSION

ASK1001-R-L

DESCRIPTION

This **TinyDuino Basic Kit** has the bare essentials to get going with the TinyDuino! This kit comes with a TinyDuino processor that has lithium battery support. You can also power your TinyDuino by plugging in a USB cable connected to a power source.

This kit includes the following items:

o **TinyDuino Processor Board w/ lithium battery support** - Runs your Arduino programs.

o **TinyShield USB Board** - Used to communicate with your TinyDuino from your computer and upload new programs. (USB Side Mount version)

o **TinyShield Proto board (without top connector)** - Used to connect to external circuitry if needed.

o **140 mAh Rechargable Lithium Polymer Battery** - Used to power your TinyDuino projects.

This kit also includes basic instructions to get your first program running.

To learn more about the **TinyDuino Platform,** *click* **here**
