# imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

# Atmel ATPL210A

## **PRIME** compliant Power Line Communications SoC

### SUMMARY DATASHEET

#### **Features**

- Core
  - ADD8051C3A enhanced 8051 core
  - Speedups up to x5 vs. standard 8051 microcontroller
- Modem
  - Power Line Carrier Modem for 50 and 60 Hz mains
  - 97-carrier OFDM PRIME compliant
  - Baud rate Selectable: 21400 to 128600 bps
  - Differential BPSK, QPSK, 8-PSK modulations
- Memories
  - 32Kbytes on-chip SRAM
  - Up to 256Kbytes external SRAM
- In-circuit serial flash programming
- Auto boot-loading program from serial flash
- Automatic Gain Control and signal amplitude tracking
- Embedded on-chip DMAs
- Automatic code encryption during boot loading
- Media Access Control
  - · Viterbi decoding and CRC PRIME compliant
  - 128-bit AES encryption
  - · Channel sensing and collision pre-detection
- Peripherals
  - Two 2-wire UARTs
  - Two SPI. SPI to serial flash and External RTC. Buffered SPI to external metering IC
  - Programmable Watchdog
  - Up to 14 I/O lines
- Package
  - 120-lead LQFP, 14 x 14 mm, pitch 0.4 mm
  - Pb-free and RoHS compliant
- Typical Applications
  - Automated Meter Reading (AMR) & Advanced Meter Management (AMM)
  - Street lighting
  - Home Automation

#### **Description**

The ATPL210 is a Power Line Communications System on Chip, which implements a full PRIME compliant PLC modem. It includes an enhanced 8051 microcontroller (IP core ADD8051C3A), a Medium Access Controller (MAC) (IP core ADD1221) and a Modem circuit (IP core ADD1321) for power line medium using OFDM modulation compatible with PRIME specifications.

ATPL210 is oriented to high performance & robust AMR systems. The ATPL210 is designed to be used by meter manufacturers to provide a low cost and compact solution for AMR & AMM systems using narrow band power line communications.

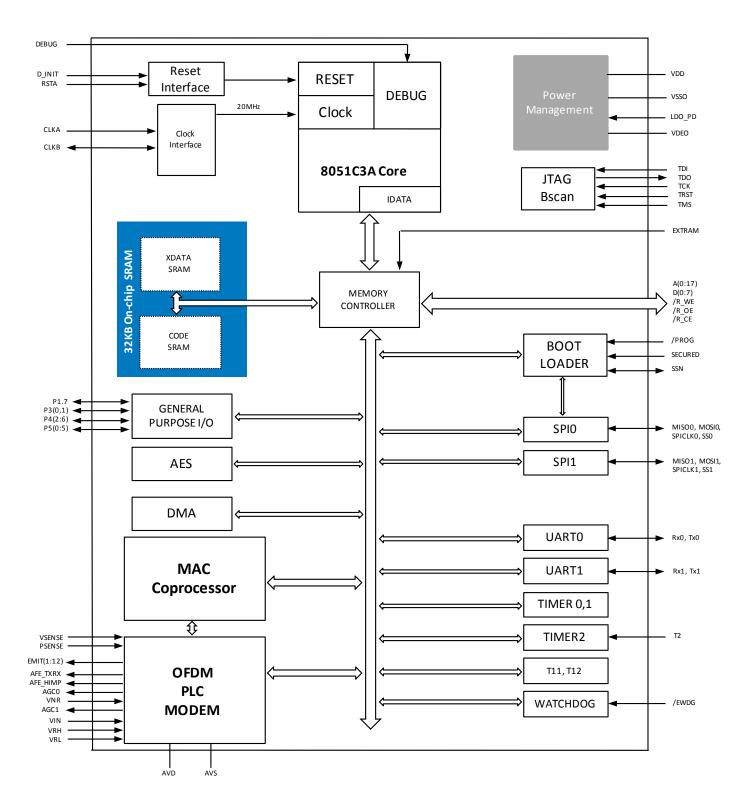

This device has been developed to reduce CPU computational load in PLC systems running PRIME protocols. ATPL210 includes all necessary resources to be used as main controller in metering applications, and allows an external device to communicate according to PLC PRIME specifications.

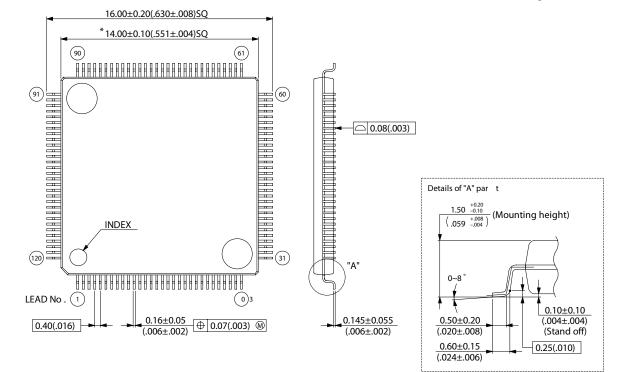

#### Figure 3-1. 120-lead LQFP Package Mechanical Drawing

Lead pitch	0.40 mm		
Pa ckage width · package length	14.0 mm · 14.0 mm		
Lead shape	Gullwing		
Sealing method	Plastic mold		
Mounting height	1.70 mm MAX		
Code (Ref erence )	P-LFQFP120-14 · 14-0.4 0		

120-pin plastic LQFP

Note 1) \*: These dimensions do not include resin protrusion. Note 2) Pins width and pins thickness include plating thickness. Note 3) Pins width do not include tie bar cutting remainder.

Dimensions in mm (inches). Note: The values in parentheses are reference values.

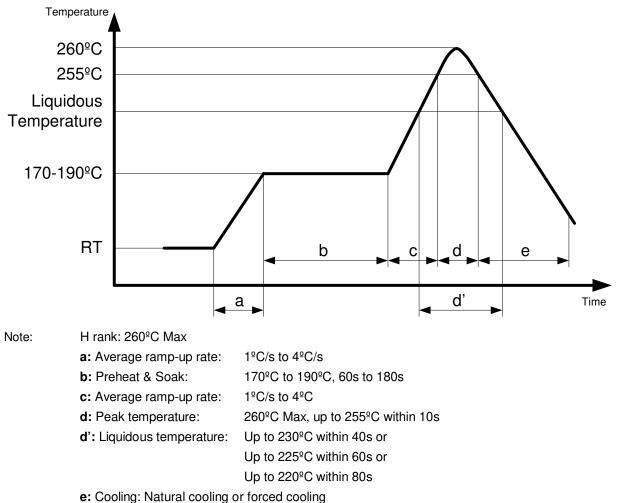

# 4. Recommended mounting conditions

### 4.1 Conditions of Standard Reflow

#### Table 4-1. Conditions of standard Reflow

Items	Contents			
Method	IR(Infrared Reflow)/Convection			
Times	2			
	Before unpacking	Please use within 2 years after production		
	From unpacking to second reflow	Within 8 days		
Floor Life	In case over period of floor life	Baking with 125°C +/- 3°C for 24hrs +2hrs/-0hrs is required. Then please use within 8 days. (please remember baking is up to 2 times)		
Floor Life Condition	Between 5°C and 30°C and also below 70%RH required. (It is preferred lower humidity in the required temp range.)
