

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Email & Skype: info@chipsmall.com Web: www.chipsmall.com

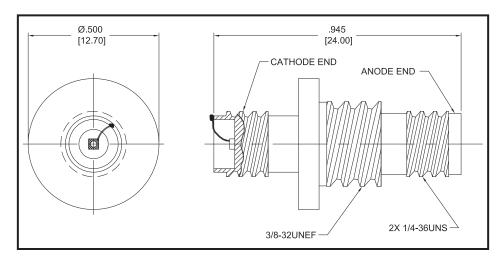

Address: A1208, Overseas Decoration Building, #122 Zhenhua RD., Futian, Shenzhen, China

PHOTODIODE 1 mm<sup>2</sup> AXUVHS5

## **FEATURES**

- · SMA connector
- · Ideal for electron detection
- · 100% internal QE
- · Ultra high speed

Dimensions are in inch [metric] units.

## **ELECTRO-OPTICAL CHARACTERISTICS AT 25°C**

| PARAMETERS                                | TEST CONDITIONS            | MIN | TYP | MAX | UNITS           |
|---|----------------------------|-----|-----|-----|-----------------|
| Active Area                               | 1mm x 1mm                  |     | 1   |     | mm <sup>2</sup> |
| Responsivity, R                           | (see graphs on next page)  |     |     |     | A/W             |
| Reverse Breakdown Voltage, V <sub>R</sub> | $I_R = 1\mu A$             | 55  |     |     | Volts           |
| Capacitance, C                            | $V_R = 0V$                 |     |     | 40  | pF              |
| Rise Time                                 | $RL = 50\Omega, V_R = 52V$ |     |     | 700 | psec            |
| Dark Current                              | V <sub>R</sub> = 52V       | 0   |     | 1   | nA              |

## THERMAL PARAMETERS

| STORAGE AND OPERATING TEMPERATURE RANGE |                           |
|---|---------------------------|
| Ambient <sup>1</sup>                    | -10° TO 40°C <sup>1</sup> |
| Nitrogen or Vacuum                      | -20°C TO 80°C             |
| Maximum Junction Temperature            | 70°C                      |

<sup>&</sup>lt;sup>1</sup>Temperatures exceeding these parameters may create oxide growth on the active area.

Over time responsivity to low energy radiation and wavelengths below 150nm will be compromised.

Tighten to maximum torque of 5 inch/pounds.

Permanent damage will result if higher torque values are used and warranty is voided.
