Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Small and High Accuracy Temperature Sensor IC Series

Analog Output Temperature Sensor IC

BD1020HFV

No.10047EBT02

●Description

Low quiescent current (4μA) and high accuracy temperature sensor
Detecting temperature by itself, output voltage appears linearly along the temperature.

●Features

1) Detection Temperature Range -30～+100℃
2) Operating Voltage Range +2.4V～+5.5V
3) High Accuracy (typically ±1.0℃@Ta=30℃, typically ±2.0℃@Ta=-30～+100℃)
4) Temperature Sensitivity (typically -8.2mV/℃)
5) Low Quiescent Current (typically 4μA)
6) Ultra Small Package (typically 1.60mm×1.60mm×0.60mm)
7) Low Thermal Resistance (typically 187℃/W)
8) ESD Rating 8kV (HBM)
9) Excellent Ripple Rejection Characteristic

●Applications

Cell Phone (RF Module, Battery Thermal Management),Audio Systems,Digital Still Camera
LCD, PDP,Optical pick up module for DVD,BlueRay

●Absolute Maximum Ratings (Ta=25℃)

PARAMETERS	SYMBOL	LIMIT	UNIT
Power Supply Voltage	V_{DD}	-0.3～7.0 ※1	V
Output Voltage	V_{OUT}	-0.3～V_{DD}+0.3	V
Output Current	I_{OUT}	±1	mA
Power Dissipation	Pd	536 ※2	mW
Storage Temperature Range	T_{stg}	-55～150	℃

※1. Not to exceed Pd
※2. Reduced by 5.36mW for each increase in Ta of 1℃ over 25℃(mounted on 70mm×70mm×1.6mm Glass-epoxy PCB)

●Recommended Operating Condition

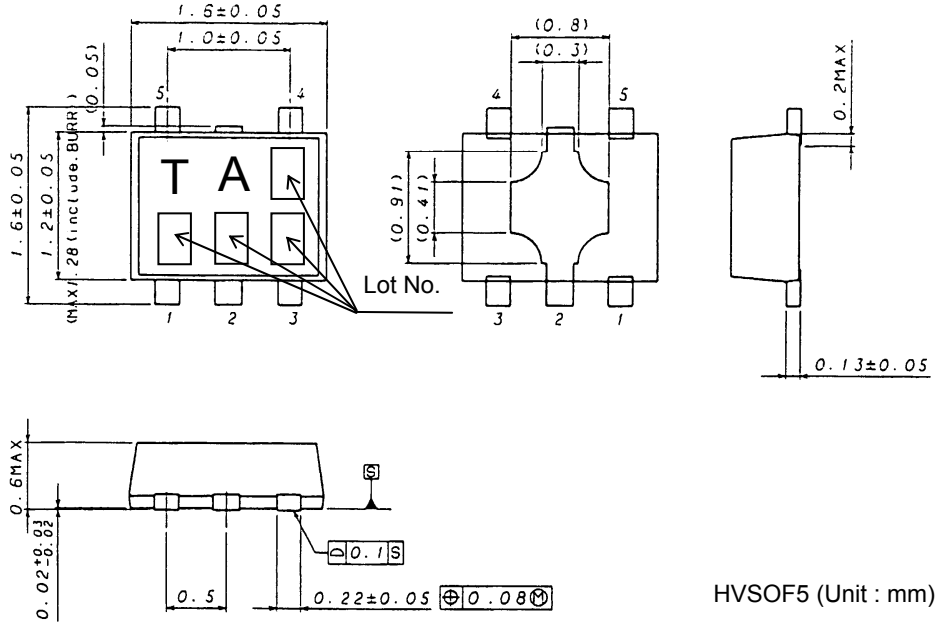
PARAMETERS	SYMBOL	MIN.	TYP.	MAX.	UNIT
Power Supply Voltage	V_{DD}	2.40	3.00	5.50	V
Operation Temperature	T_{opr}	-30	-	100	℃

●Electrical Characteristics and Accuracy (Unless otherwise specified, V_{DD}=3.0V, Ta=25℃)

PARAMETERS	SYMBOL	LIMIT			UNIT	CONDITIONS
		MIN.	TYP.	MAX.		
Accuracy	T_{acc}	-	±1.0	±1.5	℃	Ta = 30℃
		-	±2.0	±2.5		Ta = 100℃
		-	±2.0	±2.5		Ta = -30℃
Temperature Sensitivity	V_{SE}	-8.4	-8.2	-8.0	mV/℃	
Supply Current	I_S	-	4.0	7.0	μA	
Output Voltage	V_{OUT}	1.288	1.300	1.312	V	Ta = 30℃
Output VoltageLine Regulation	$\Delta V_{OUT}V_{DD}$	-	-	4	mV	V_{DD} = 2.4～5.5V
Output VoltageLoad Regulation	$\Delta V_{OUT}R_L$	-	-	1	mV	I_{OUT} : 0μA / 0.7μA,Difference

Radiation hardiness is not designed.

●Package Outlines



HVSOF5 (Unit : mm)

●Pin Descriptions

Pin No.	Pin Name	Function	Comment
1	N.C.	-	Please set to OPEN .
2	PG	Heat Condition	Please connect to temperature measurement part.
3	VOUT	Output Voltage for proportional t emperature reversely	-
4	VDD	Power Supply	-
5	GND	Ground	-

●Notes for use

1) Absolute Maximum Ratings
An excess in the absolute maximum ratings, such as supply voltage, temperature range of operating conditions, etc., can break down devices, thus making impossible to identify breaking mode such as a short circuit or an open circuit. If any special mode exceeding the absolute maximum ratings is assumed, consideration should be given to take physical safety measures including the use of fuses, etc.

2) GND voltage
Make setting of the potential of the GND terminal so that it will be maintained at the minimum in any operating state.

3) Pin short and mistake fitting
When mounting the IC on the PCB, pay attention to the orientation of the IC. If there is a placement mistake, the IC may be burned up.

4) Operation in strong electric field
Be noted that using ICs in the strong electric field can malfunction them.

5) Mutual impedance
Use short and wide wiring tracks for the power supply and ground to keep the mutual impedance as small as possible. Use a capacitor to keep ripple to a minimum.

6) Please connect it with the temperature measurement part (GND line usually) to make thermal conductivitywith the mount board side the best though the PG pin (Pin NO.2) is hindered and doesn't exist about OPEN even if it connects it with GND.

●Ordering part number

B	D	1	0	2	0	H	F	V	-	T	R

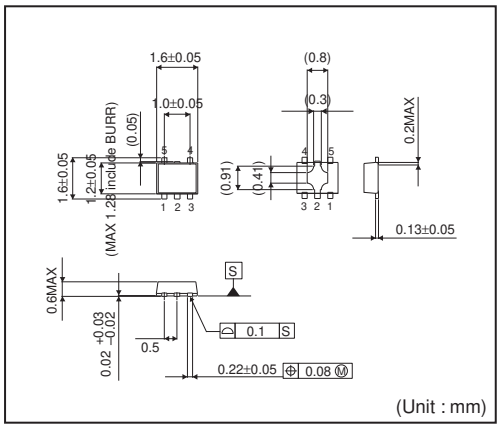
Part No.

Part No.
1020

Package
HFV: HVSOF5

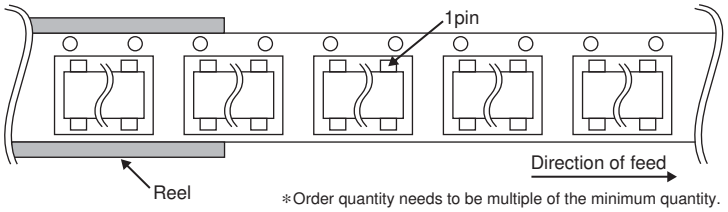
Packaging and forming specification
TR: Embossed tape and reel
(HVSOF5)

HVSOF5



<Tape and Reel information>

Tape	Embossed carrier tape
Quantity	3000pcs
Direction of feed	TR (The direction is the 1pin of product is at the upper right when you hold reel on the left hand and you pull out the tape on the right hand)



∗Order quantity needs to be multiple of the minimum quantity.

Notes

No copying or reproduction of this document, in part or in whole, is permitted without the consent of ROHM Co.,Ltd.

The content specified herein is subject to change for improvement without notice.

The content specified herein is for the purpose of introducing ROHM's products (hereinafter "Products"). If you wish to use any such Product, please be sure to refer to the specifications, which can be obtained from ROHM upon request.

Examples of application circuits, circuit constants and any other information contained herein illustrate the standard usage and operations of the Products. The peripheral conditions must be taken into account when designing circuits for mass production.

Great care was taken in ensuring the accuracy of the information specified in this document. However, should you incur any damage arising from any inaccuracy or misprint of such information, ROHM shall bear no responsibility for such damage.

The technical information specified herein is intended only to show the typical functions of and examples of application circuits for the Products. ROHM does not grant you, explicitly or implicitly, any license to use or exercise intellectual property or other rights held by ROHM and other parties. ROHM shall bear no responsibility whatsoever for any dispute arising from the use of such technical information.

The Products specified in this document are intended to be used with general-use electronic equipment or devices (such as audio visual equipment, office-automation equipment, communication devices, electronic appliances and amusement devices).

The Products specified in this document are not designed to be radiation tolerant.

While ROHM always makes efforts to enhance the quality and reliability of its Products, a Product may fail or malfunction for a variety of reasons.

Please be sure to implement in your equipment using the Products safety measures to guard against the possibility of physical injury, fire or any other damage caused in the event of the failure of any Product, such as derating, redundancy, fire control and fail-safe designs. ROHM shall bear no responsibility whatsoever for your use of any Product outside of the prescribed scope or not in accordance with the instruction manual.

The Products are not designed or manufactured to be used with any equipment, device or system which requires an extremely high level of reliability the failure or malfunction of which may result in a direct threat to human life or create a risk of human injury (such as a medical instrument, transportation equipment, aerospace machinery, nuclear-reactor controller, fuel-controller or other safety device). ROHM shall bear no responsibility in any way for use of any of the Products for the above special purposes. If a Product is intended to be used for any such special purpose, please contact a ROHM sales representative before purchasing.

If you intend to export or ship overseas any Product or technology specified herein that may be controlled under the Foreign Exchange and the Foreign Trade Law, you will be required to obtain a license or permit under the Law.
