Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

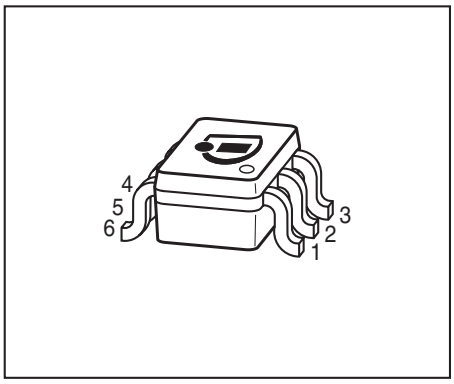
Dual N-Channel MOSFET Tetrode



- Designed for input stages of 2 band tuners
- Two AGC amplifiers in one single package, with on-chip internal switch
- Only one switching line to control both FETs
- Integrated gate protection diodes
- Ultra low noise figure
- Excellent cross modulation at gain reduction
- Integrated ESD gate protection diodes
- Pb-free (RoHS compliant) package
- Qualified according AEC Q101
