

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Electrical Engineering 101 - (3rd Edition)

BOK-09458 RoHS

Description: Everything you should have learned in school, but probably didn't! This book is great for electronics newbies, or if you just need a refresher course. Topics ranging from Ohm's law to proper usage of an oscilloscope to managing and interacting with employees are covered.

The book approaches all of its topics in a very straight-forward, practical manner, and all the important information is summed up nicely in a "Rules-of-Thumb" section. The information presented in this book will provide a great start towards building or reinforcing your EE knowledge.

We're carrying this book because the author (Darren Ashby) thinks and writes like we do. He has a large disclaimer in the front of the book, but points out that electronics can be taught to anyone with the right approach. We agree.

A few of the topics covered:

- What is electricity really?
- Ohm's Law
- Capacitors and Inductors
- Op-Amps
- Microprocessor Basics
- Motors
- Power Supplies
- Tools (soldering irons, oscilloscopes, etc.)
- Troubleshooting
- Communication Skills
