Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Programming Interactivity - 2nd Edition

BOK-11123 RoHS

Description: Programming Interactivity is a great new book that covers a wide range of topics. What is different about this book is that it shows hardware geeks like myself that Processing and openFrameworks is not scary - it's actually quite powerful and easy to use! And for the software person that eats Java with a heap of scripting, hardware can un-tether you from a computer and open up a new world of embedded computing.

This second edition copy is updated for the release of Arduino 1.0 and Processing 1.5.

A few of the topics covered:

- Basic C
- Processing
- openFrameworks
- Computer Vision (OpenCV)
- Gesture and touch recognition
- Protocols
- Motors and Servos
- Solenoids
- LEDs and LCDs
- LilyPad
- GPS and Location

This is a fast paced book! If you have some base experience with Arduino, some hardware, or maybe a few weeks of openFrameworks, this is a great book to really deepen your knowledge of how all these great projects can be united to create a truly amazing installation.

This book uses a lot of SparkFun products and images. All the related items below are used in the book. We're excited to see our parts and pictures used in a book!

Info:

- Author: Joshua Noble
- Publisher: O'Reilly Media
- Paperback: 728 pages
- 2nd Edition
- ISBN 10: 1-4493-1144-X
- ISBN 13: 978-1-4493-1144-5
