

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of “Quality Parts,Customers Priority,Honest Operation,and Considerate Service”,our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Indicating blade fuses and in-line fuse holders

Find blown fuses fast with *easyID*

Innovative Bussmann series *easyID* technology quickly identifies a blown fuse.

Product description:

Bussmann® series *easyID*™ illuminating blade fuses and holders use LED technology to indicate that a fuse has opened, making it easy to spot in fuse panels tucked under dark dashboards.

Illuminating blade fuses are the ideal choice for fast and easy fuse replacement. The most popular fuse types (ATC, ATM, Maxi™, FMX) are available in common fuse ratings for consumer convenience.

ATM fuses are used for a wide variety of applications involving late-model OEM vehicles, while ATC fuses are widely used in older automobiles and light trucks.

Maxi fuses are used for protecting circuits in wiring harnesses (usually found under the hood in a fuse panel near the battery) and are increasingly used in domestic cars and some imports.

Female Maxi (FMX) fuses are used for late-model vehicles and are available in the most popular amp ratings.

Features and benefits:

- Available in popular sizes and ratings to cover the most common replacement fuse needs.
- Universal color coding makes it easier to match with a traditional non-illuminating fuse.
- Value packs, assortment and service kits provide popular packaging options to maximize retail sales.
- Specialty black packaging helps fuses stand out in any retail setting as being the superior choice.

easyID illuminating holders:

Illuminating fuse holders use regular ATM, ATC, Maxi and FMX blade fuses.

- Catalog no. ATM-FHID
- Max volts/amps 32V/20A
 - 16# leadwire
 - UPC 051712238083

- Catalog no. ATC-FHID
- Max volts/amps 32V/20A
 - 16# leadwire
 - UPC 051712238069

- Catalog no. MAX-FHID
- Max volts/amps 32V/60A
 - 6# leadwire
 - UPC 051712514545
