Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Power Architecture® processor (COP) Probe Tips for CodeWarrior TAP ☆

Overview

The CWH-CTP-COP-YE is a removable probe tip targeted for Power Architecture processors (see Supported Devices for precise list). This probe tip connects the Power Architecture microprocessor target system's JTAG port to the CodeWarrior TAP base unit's 30-pin target connector.

This tip is compatible with the CodeWarrior TAP CWH-CTP-BASE-HE base unit. Base units do not come with a probe tip so you must have at least one of these to debug your device.

Features

- Removable probe tip
- Low cost and economical to order several spares
- Allows base unit to work with several different target types
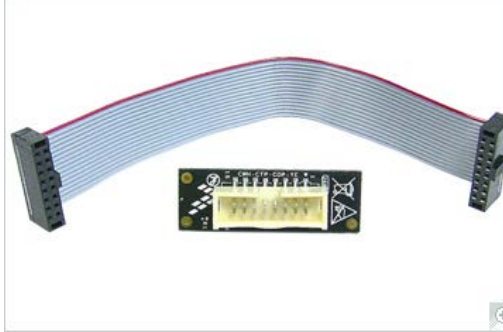

System Requirements

- Power Architecture -based target system with JTAG header
- CodeWarrior TAP
