

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from,Europe,America and south Asia,supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts,Customers Priority,Honest Operation,and Considerate Service",our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip,ALPS,ROHM,Xilinx,Pulse,ON,Everlight and Freescale. Main products comprise IC,Modules,Potentiometer,IC Socket,Relay,Connector.Our parts cover such applications as commercial,industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

Kit Contents

- CY8C22545 Emulation Pod

Hardware Description

The CY3250-22545-POD emulation pod kit provides developers with a solution for debugging CY8C22545 projects. This kit provides only replacement pods for the specified PSoC family. The CY8C22545 device is designed to provide a sufficient amount of memory and peripheral resources for use in CapSense™ applications, but are also capable of handling a wide range of applications found in the general-purpose microcontroller market.
